**Important Billing Information for COVID-19 Vaccines**

Dear Medicaid Provider,

This notice informs providers that the Ohio Department of Medicaid will reimburse Medicaid participating pharmacies an administration fee through NCPDP claim submission for federally allocated COVID-19 vaccines. These specific instructions apply to Medicaid fee-for-service claims, but the Medicaid managed care plans will also reimburse these claims through NCPDP claim submission.

Pharmacies should bill the vaccines and administration via an electronic NCPDP claim according to the following instructions:

- Submit each vaccine with the specific approved vaccine NDC for an eligible participant.
- Submit claim with a Basis of Cost Determination (423-DN) of “15” (Free product or no associated cost) with an associated Ingredient Cost Submitted (409-D9) value of $0.00.
- Submit claim with the Professional Service Code (440-E5), populated with an “MA” (Medication Administered) to identify that the product was administered.
- Days Supply (405-D5) should be submitted with a value of “1”.
- Vaccines must be administered according to authorized labeling for appropriate ages and dosing interval.
- Submit the vaccine administration fee listed below in the Incentive Amount Submitted field (438-E3) on the same claim as the vaccine (i.e., ingredient).
